INSTRUCTIONS: This form is completed by the ENTIRE TEAM. Fill out the form AFTER doing the entire activity. For each team member, write their name under a heading. Then the **ENTIRE TEAM must agree** on a BLANK, PLUS, or MINUS for each of the performance criteria for each member (see key above). For most items, a blank will most often be used. DO NOT write in the scoring box above, nor fill in the SCORE, DEVIATION or GRADE boxes. **NOTE: giving every member high grades lowers the final grades of the best members.**

The teacher will assign a TEAM GRADE to the project, then a GRADE for each student based on your assessments. From these grades, the AVERAGE GRADE and each student's DEVIATION from it are calculated, and individual grades are based on this.
