Friday, September 26, 2008

This is the required field trip for History of the Universe. There will be a test you will take later in class which will be based on this trip. You'll be allowed to use your field notes on the test. We will visit Galway to view ancient rocks and fossils, the Rock City Falls Fire Department for fossils, Lester Park to see stromatolites, and Saratoga Spa State Park for the geology of the springs.

We will board a school bus at about 9:15 A.M. We will return to B.S.H.S. by 2:00 P.M. We plan to eat lunch at the Spa State Park. **BRING A LUNCH and WATER** (no glass please)! It is also important to bring: **notebook**, pencils, rain coat, warm clothes (hats and gloves too), backpack, garbage bag, sunglasses, camera, medium ziplock freezer bags (for fossils).

Although this is a relatively safe trip, all field trips carry some dangers. **Students and chaperones will participate at their own risk.**

IMPORTANT: We need at least 2-3 parent / guardian chaperones ! If you'd like to accompany us, please indicate this on the form below. Thanks!

*Please return the permission slip below to Mr. Ling. Keep this info sheet!*
